Title: Coronavirus and lung cancer: What you need to know?

Date: March 20, 2020

Brief description: The global coronavirus (COVID-19) pandemic has serious implications for us all, but it's especially concerning for the immunocompromised. In this episode, we discuss what you need to know about coronavirus and lung cancer. We'll talk with lung cancer patients about how difficult it is to get a coronavirus test and the challenges families and caregivers have living with someone with lung cancer during COVID-19. Plus, hear from lung cancer specialist at Cedars-Sinai Cancer Center, Dr. Karen Reckamp, to understand how COVID-19 specifically affects lung cancer patients, and how can all do our part to protect our communities.

A Block Guests: Janet Freeman-Daily, lung cancer patient and advocate and Lisa Goldman, lung cancer patient and advocate

- Starting timecode: 2:25
- Speaker bio:

C Block: A word from Kim Norris, LCFA Co-founder and President about how the lung cancer advocacy organizations are working together to keep the lung cancer community up to date on COVID-19.

- Starting timecode: 30:11

LCFA's mission is the improvement in survivorship of lung cancer patients through the funding of transformative science.

While raising funds to support lung cancer research, LCFA will raise the public's awareness and serve as a resource for patients or anyone seeking answers, hope, and access to updated treatment information, scientific investigation, and clinical trials.

You can also join the conversation with LCFA on [Facebook](#), [Twitter](#), and [Instagram](#).
