Title: Getting A Second Opinion: How COVID-19 may be changing lung cancer treatment for the better

Date: July 2020

Brief description: A doctor's visit by computer? A second opinion from thousands of miles away? COVID-19 is changing how healthcare is delivered for people across the country, but lung cancer patients have been at the forefront of using this technology (telemedicine) to manage their diagnosis for years. Listen in as lung cancer patient and advocate Gina Hollenbeck talks to her incredible health care team of Dr. Raymond Osarogiagbon of Baptist Cancer Center in Memphis, Tennessee and Dr. Ross Camidge of UHealth in Denver, Colorado about how they consult with each other to provide the best care in a model that may become the new standard in a post-COVID world.

A Block Guest:
