

Episode 8.3 Show Notes

Title: How did lung cancer groups rally to inform patients during COVID-19?

Date: 8-7-2020

Brief description: Living with lung cancer comes with many challenges, especially during the COVID-19 era. Unfortunately, information about how COVID-19 affects lung cancer patients is hard to come by. Stepping into this void, lung cancer advocacy groups have worked together to produce consistent resources with the latest learnings, updates, and information to help those living with lung cancer during COVID-19.

Guests:

- Starting timecode: 00:00
- Speaker bio: [Janet Freeman-Daily](#) is a lung cancer patient and activist who brings her engineering background to research advocacy.
- Upal Basu Roy, PhD, MPH, [LUNGeivity Vice President of Research](#). Dr. Roy is responsible for setting strategy and overseeing LUNGeivity's scientific research awards programs and has a background in public health.

Resources:

- [LCFA's lung cancer and COVID-19 advocacy page](#)

LCFA's mission is the improvement in survivorship of lung cancer patients through the funding of transformative science.

While raising funds to support lung cancer research, LCFA will raise the public's awareness and serve as a resource for patients or anyone seeking answers, hope, and access to updated treatment information, scientific investigation, and clinical trials.

You can also join the conversation with LCFA on [Facebook](#), [Twitter](#), and [Instagram](#).
